

How to Search/Playback Video

1. Log in to Main Menu at the DVR or NVR

Right click mouse and click "Main Menu". Use your login credentials at System Login screen

2. Select "Video" from the Main Menu to start the playback/search.

		LIVE 💄 🕞 - 😫
VIDEO View, search, and play recorded videos.	ALARM View and search live alarm information. Configure alarm event actions.	IVS Manage and view behavior detection and settings.
View POS information and configure related settings.	FACE DETECT Manage and view face detection information and settings.	BACKUP Search and back up video fites.

5. Click your mouse on the time bar to select the time to begin the playback. Time of the day is indicated using 0 – 24, which means "0" is equal to 12 morning and 24 means 12 evening/night. Camera channels with available recorded video will start to playback video while other channels with no recorded video will simply show black or blank screen. Hover the mouse on each icon to identify the function such as Play, Slow Playback, Fast Playback, Previous Day, Next Day etc...
